MEMORANDUM FOR: Project Security Officer

25X1A

SUBJECT: Secure Touch Service Between Headquarters and [REDACTED]
[REDACTED] R & W 25X1A

1. Two engineers from this office have been located at the Ramo and Wooldredge Plant for training in the System 2 equipment and participation in the testing of this system. It is highly important that reports from these engineers be forwarded directly and as rapidly as possible to this office and that instructions from this office be forwarded to them.

2. It is therefore requested that your office make the necessary arrangements to provide the engineers with a postoffice box and to establish the necessary procedures for two-way letter communications between this office and the box for the engineers. The box can either be serviced by the engineers or by your local representative as dictated by convenience or security considerations.

3. For your information, the two engineers are [REDACTED] and [REDACTED] both are living at the [REDACTED] in Inglewood.
